Taking the first step to joining our rapidly expanding Distributor Partnership program is simple. Fill out the Dealers/Distributor Form at the end of this document. Then scan it and email back to us. Once your information is received and reviewed we will contact you immediately to further discuss the opportunities and benefits of becoming a MotoMon Corporation distributor.

- Identify business and GPS system requirements
- Research and compare MotoMon solutions to competitors [read below]
- Fill out and return MotoMon Distributor Application [at end of this document]

The MotoMon GPS Tracking Solution

MotoMon has been a pioneer in the Security Industry for over 18 years, 6 of which have been committed to research and development in the GPS industry. We continually work to improve our tracking software. All the time collaborating with manufacturers to improve the features and functionality of our implemented GPS tracking hardware. Our expertise is well known and respected in the manufacturing community. Where we excel is how our software application which flows together and is intuitive in its design. Compare side by side our system and hardware with the competition. The majority of consumers, dealers, and manufacturers prefer our interface and tracking system capabilities than any other on the market.

MotoMon has built its enterprise solution to fulfill today's global GPS tracking needs. Unlike the majority of GPS companies, MotoMon is much more than just vehicle tracking. Our revolutionary software design, using open architecture, allows us to change rapidly when needed and affords you the peace of mind of never having to worry about an obsolete outdated system. MotoMon's highly secured and redundant architecture insures data is protected and save from unauthorized access. Modular design allows scalability and easy replacement of any critical component when a new technology solution emerges. These capabilities provide you the confidence in knowing we will accommodate our customer's needs today, tomorrow, and beyond. Providing the infrastructure to stay ahead of the competition as technology evolves is very important.

As a MotoMon Distributor Partner you will have the ability to offer your clients an added level of security integrating the leading provider of real time GPS location services. The MotoMon Distributor Partner program provides your customers with real time location of asset, fleet management tools, and critical management reports. This application is proven to deliver time and money saving results!

Our Distributor Partner program not only creates additional value for your customers, it provides you with a competitive edge in your market. We are dedicated to locating and retaining qualified dealers throughout the world to represent our product. MotoMon Corporation offers quality innovative products backed by a team of professionals committed to helping you succeed in your business. We have outstanding technical and sales support as well as technical training available for our authorized dealers.

Comparing the FACTS

Who can offer you the best all round GPS tracking application? Your decision needs to be based on Facts derived from your own research.

These are the questions you MUST have answered by any GPS provider you're considering:

1. Requirements for standard applications, small business, or end users.

- Can your provider offer starter interrupt, door unlock, and I/O sensors...
- Can your provider let you locate and track your assets, live from your cell phone (from anywhere)
- Does the system provide alerts on your cell phone, PDA, computer, email etc...
- Are you charged more for Real-Time tracking with 5 second updates or application customizations
- How long does your system save the tracking data...
- Can your provider update firmware or re-configure your GPS device remotely...

2. Requirements for Distributors, large business', or end users.

- Does the system provider have a full selection of integrated GPS devices to accommodate all of your different applications...
- Can your provider re-configure the software operating systems in the GPS devices to increase speed and lower data costs...
- Is the system designed to be expanded for future business requirements...
- MOTOMON is one of the only (VARs) that can provide this a (value added reseller)...
- Can your provider offer a virtual Geofence

3. Requirements for Distributors, Private Label Distributors, and High Tech Integrators.

- Can the system scale to support thousands of devices for today and tomorrow...
- Can the system incorporate any future GPS devices...
- Can the system manage legacy devices...
- Can the system pull your GPS data and integrate it into your existing systems...
- Can your provider integrate any map data from any country in the world
- Does the system support multiple languages...
- Can the system integrate with most any business system you desire...
- Can your provider offer polygon or corridor GeoFences (a must for long haul transportation)...
- Does your provider provide a high speed reverse geocoder...
- Can your provider provide you a private label and/or domain system (Web Site) so you can run your own business and set your own pricing...

4. Requirements for Duplicating the MOTOMON Business model in the United States and abroad.

- Can the system be private branded for you, as a distributor, with your private website, and/or domain...
- Do you need an IT Administrator to install and maintain software at your private location anywhere in the world (Not with MotoMon)...

Making the Right Business Decision

You should be concerned with any company that cannot answer YES to all of the above facts or issues. I would suggest you let MotoMon help you understand truly what your GPS needs are and what is possible right now in the marketplace. We are always available to help answer all your questions.

MotoMon is a global company which can provide you with industry leading GPS asset tracking and fleet management applications All-In-One. We are your One Stop Shop for global tracking. Protect and secure your time and money investment by partnering with MotoMon's Team and industry leading dynamic solutions.

Complete the Dealer / Distributor Form Now. Scan and return it to Info@MotoMon.com . We will contact within 1 business day to outline the opportunities available to your firm.

The Cost Factor

After you determine your GPS requirements, and before you make a financial commitment, talk to a representative from MotoMon, Fill out the Distributor Application. We can then discuss in detail our pricing structure we have a wide variety of GPS devices and a simple service plans to fit your specific requirements. After you have received your cost structure compare it to other potential GPS suppliers and you will come to the conclusion that MotoMon is at a minimum 40 to 50% less than the so called

competition. Our reduced cost factor is based on volume purchasing power from our manufactures. Having researched, developed, and designed our operating application systems in-house, allows us to pass

these cost saving advantages onto you, our distributors. You will agree there is a great deal of margin for you to make a monthly recurring profit. Don't be fooled by competitor's false promises.
